

IMBIBE

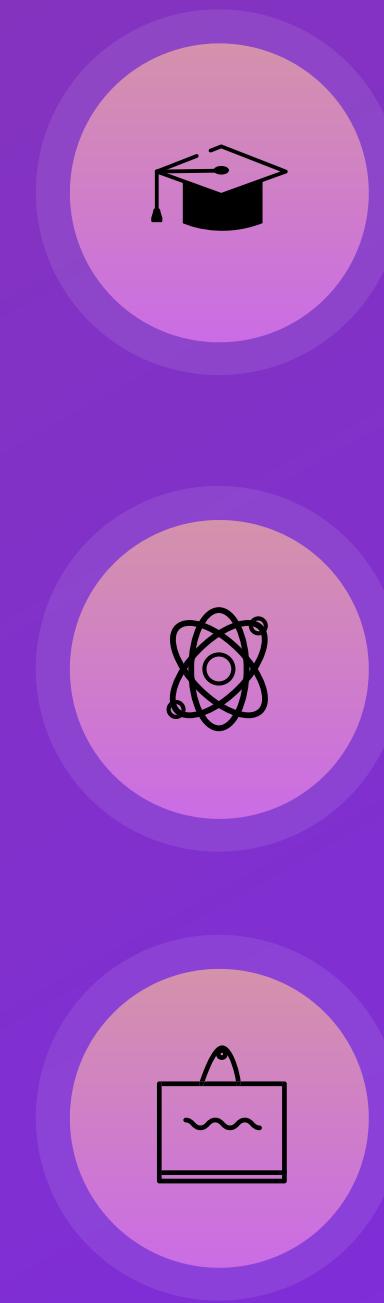

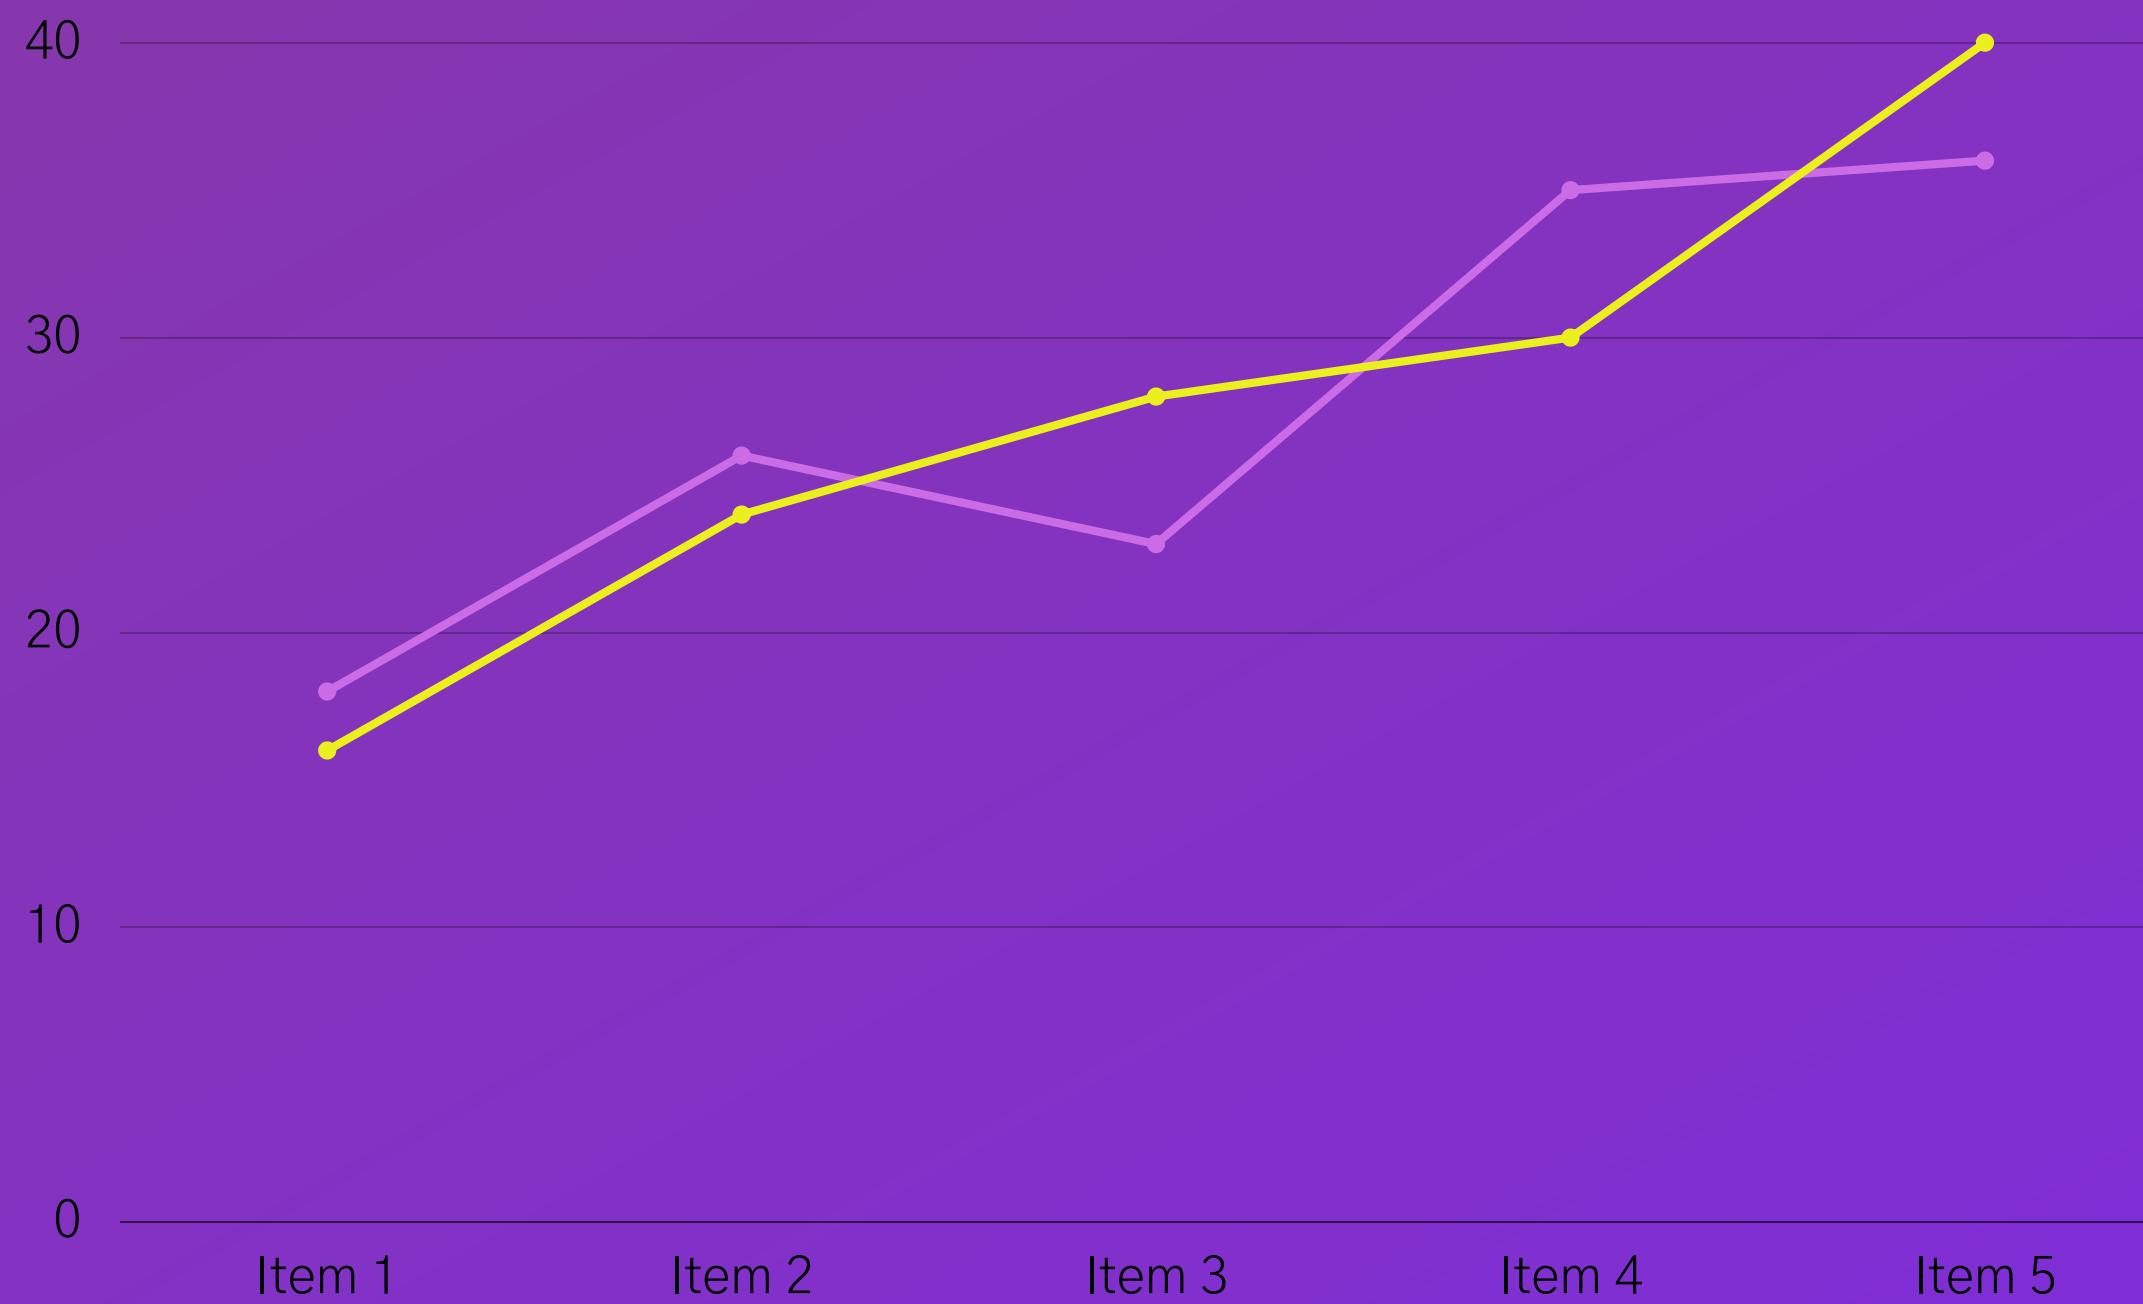

A fully functional e-learning/l.m.s website and application(like udemy, coursera) that allows students to learn from videos, attend quiz and can purchase premium membership for materials, certification and personal mentorship. Website should provide function to admin for course upload, updation in prices, e.t.c.

My Idea

To allow people to learn for personal accomplishment or to earn a professional degree, without physically attending a traditional university or academic setting.

Rise of Self-Learning

Motivation

Curiosity

Reflection

Benefits

E-learning saves time and money. With online learning, your learners can access content anywhere and anytime. E-learning leads to better retention. E-learning is consistent. E-learning is scalable. E-learning offers personalization.

Academic Learning.
Association Learning.
Channel Training.
Compliance Online Training.
Continuing Education.
Customer Online Training.
Employee Training.
Extended Enterprise.

Use Cases

Our Planning

1

Find Out Who The eLearning Course is For

2

Define The Learning Objectives

3

Decide About The eLearning Content To Be Included

4

Research Best Practices For Teaching The Subject Matter

5

Define Specific Tasks Of The eLearning Project
